

Snow Removal Notice

Bishop Gardens Snow Removal Procedures 2010-2011

Dear Residents:

Snow removal will be done in two stages. **Section A at 9:00 A.M. & Section B at 11:00 A.M.** (see **attached map**).

If you live on the even numbered side of the complex (your unit is an even number) you are in **Section A**. Your car will have to be moved by 9:00 A.M.

If you live on the odd numbered side of the complex (your unit has an odd number) you are in **Section B**. Your car will have to be moved by 11:00 A.M.

If you live in units 1, 3, 5, 7, 9, 11, 13, 15, 17, 19, which are odd numbers you will have to move your car at the 9:00 A.M. start time. Please refer to the map on the other side.

HOW WILL YOU KNOW IF WE ARE PLOWING AND WHEN TO MOVE YOUR CAR

There will be a message left on the Bishop Gardens answering machine at 508-872-6115.

When the forecast calls for snow please call the above number for information about when we will be removing the snow. **Please make sure to check the line before you go to bed and in early morning as our message could change if the snowstorm changes.**

Like in past years we will be doing the complete clean up of the parking lot the day after the storm stops.

For an example if we have a snowstorm on Friday the complete parking lot clean up (when your car must be moved) will happen on Saturday Morning (section A - 9:00 AM and section B - 11:00AM).

WHAT HAPPENS WHEN A CAR IS NOT MOVED?

As in past years if you do not move your car at the proper time it will be towed with out notice (this means even if you have your car parked in your numbered spot or a car with a parking plaque in window you will still be towed without notice). There is also a \$25.00 fine issued to any owner for not moving their car at the proper time. **(If your car does get towed please call Henry's Towing at 508-875-9152.**

Please remember we rely on the Weather Man to give us our forecast. They are not always right in their predictions. We try our best to keep all residents informed about snow removal. Please make sure to check the snow line message for any changes.

Please remember that even if your space has been plowed during the storm you still have to move your car at the proper time once the storm is over and we do the full clean up. Please call the snow line at 508-872-6115 to find out when the full clean up will be. Cars will still be towed for not moving.

MAKE SURE TO REVIEW THE ATTACHED MAP
